# Experiences

2016 May - Current Techmantle, Florida, USA

UX/UI Designer, Team Lead

I'm currently the Lead. UX/UI Designer (Product Manager) for Techmantle Software Inc. in USA. My responsibilties are:

- Leading a huge designing team.
- Understand product specifications and user psychology.
- Develop wireframes and prototypes around customer needs.

• Define the right interaction model and evaluate its success.

In 2020, I was focused on User Experience Sector, Because A Good UI can not stand out in the market without a strong UX.

My Working Fields:

- Responsive UI For Mobile, Web, TV as well.
- Working with PWA
- ERP, POS, Enterprise System, Security System Designing.
- Working Towards MVP Cases.

**Klover Cloud** 

Lead UX Designer & Product Designer

I am passionate about UX/UI designing which make me a product designer as well. In KloverCloud my responsibility was:

- · Research on new product and design it for real world.
- Generate assets for Development team (React, Android)
- Conduct concept and usability testing and gather feedback. Collaborating with Developers to create intuitive, user-friendly
- software Keep abreast of competitor products and industry trends

My Challenge was:

- Working as a UX/UI Designer with a huge development team(react, android) with a huge pressure.
- I Designed 21 Products In 3 Month.
- Design Parallax and Interactive Prototypes.

Project X LTD, Dhaka, Bangladesh

UX/UI Designer & brand designer

I have almost 70+ happy client around the world.i provide Interactive Mockup and Attractive UI, Some Of My Responsiblities :

- Micro Interaction
- Interactive Prototype
- Web Flow

I invented the term because I thought human interface and usability were too narrow. I wanted to cover all aspects of the person's experience with the system, including industrial design, graphics, the interface, the physical interaction, and the manual.
